Although Papers Have Not Been Signed,

An Oral Agreement Has Been Reached.

Some Have Conjectured the Price at \$500,000.

No surprise is caused by the announcement that the Everett-Moore syndicate has purchased the Canton-Akron property. Ever since the announcement made in Saturday's Democrat that negotiations were in progress there have been few who doubted for a moment that the deal would go through. This was concluded from the fact that the Everett-Moore syndicate obtains its object in a street railway deal. While the papers conveying the property have not yet been signed, it is believed this formality will not be long delayed.

Vice President Will Christy, of the N. O. T. Co., stated to a Democrat reporter Thursday morning that although the papers had not yet been signed there was an oral agreement on terms. "I believe the papers will be signed within a few days," said Mr. Christy. "The deal, with the exception of a few formalities, is closed." No statements have yet been given to the public relative to the price paid for the Canton-Akron property. It is believed, however, that the Everett-

Quack Medicines

Are the long list of useless and often injurious remedies put upon the world by ignorant pretenders. "St. Bernard Vegetable Pills" claim no miraculous origin and the use of the simple roots of which they are composed is as old as medicine. The phlegm, blood and bile of the body must be kept pure in order to insure health, and this compound operates upon stomach, bowels, liver and skin with that object in view. Science has never discovered their equal. All druggists sell them.

If the C. M. & A. line is completed, and none of the Everett-Moore people have said that it won't be completed—and after both it and the Canton-Akron line are consolidated with the N. O. T. system, the N. O. T. will control a trackage of 150 miles. It now has 95 miles in operation—and the C. M. & A., Canton-Akron and Kent

Ravenna lines now being constructed will have a trackage of 55 miles. All these lines will eventually be known as the Akron Division of the Everett-Moore syndicate's general system, which has not yet been named.
